

RATAView™

Perform RATA tests accurately and efficiently to meet complex regulations, including requirements around testing frequency, calculations, data gathering and data retention.

RATA testing presents a variety of challenges for stack testers. RATAView was purpose-built to help meet those challenges for easier, faster testing with improved accuracy.

Simplify Regulatory Compliance

RATAView is an easy-to-use subscription software that helps you comply with 40 CFR Parts 60 and 75 requirements. It's packaged with an 8864 Data Controller, the most widely-used device in the industry for data collection, computation and storage. Calculations are pre-programmed and saved testing configurations can be reused to optimize efficiency.

Developed by stack testers for stack testers, RATAView is custom-built for RATA testing operations.

Test ID: 2			QA / Name									
Start	End	Name	Class	Instrument	Type	Measrad	Expiratd	Shift	Site	QA-Step		
		NOx High Range	82.54	ppm	CALBRATION_BROK	NOx High Range	ZERO	0 ppm		1		
		S02 High Range	-0.24	ppm	CALBRATION_BROK	S02 High Range	ZERO	0 ppm		1		
		CO2	4.95	%	CALBRATION_BROK	NOx High Range	MED	0 ppm		2		
					CALBRATION_BROK	S02 High Range	MED	0 ppm		2		
					CALBRATION_BROK	CO2	MED	0 ppm		2		
					CALBRATION_BROK	NOx High Range	HIGH	0 ppm		3		
					CALBRATION_BROK	S02 High Range	HIGH	0 ppm		3		
					CALBRATION_BROK	CO2	HIGH	0 ppm		3		
Run 1					NOx High Range	0.00 ppm						
Run 1					S02 High Range	0.00 ppm						
Run 1					CO2	0.00 %						
Run 1					NOx High Range	ZERO	0 ppm			1		
Run 1					S02 High Range	ZERO	0 ppm			1		
Run 1					CO2	0.00 %				1		
Run 2					NOx High Range	MED	0 ppm			2		
Run 2					S02 High Range	MED	0 ppm			2		
Run 2					CO2	0.00 %				2		
Run 2					NOx High Range	0.00 ppm						
Run 2					S02 High Range	0.00 ppm						
Run 2					CO2	0.00 %						
Run 2					NOx High Range	ZERO	0 ppm			1		
Run 2					S02 High Range	ZERO	0 ppm			1		
Run 2					CO2	ZERO	0 ppm			1		
Run 2					NOx High Range	MED	0 ppm			2		
Run 2					S02 High Range	MED	0 ppm			2		

Automate Testing

RATAView guides you through the configuration of a test queue to create a workflow, then automates the test process.

Reuse the test workflow at any time with the click of a button in either automatic or manual mode. Choose to reset your test to clear out current results and start over, accept the test to stop or pause when needed.

Create workflows and automate your testing runs.
